Date: December , 2023

To Whom It May Concern,

I am writing this letter to provide a glowing recommendation for Mr Bhesh Rsj Mahato, who has been employed as a Veterinary Technician at Bhatbhateni Animal Hospital and Research Center from June 2023 to November 2023.

Bhesh Raj Mahato has been an integral part of our team for the past 6 months. He consistently exhibited his proficiency in a wide range of veterinary tasks and responsibilities, making him an indispensable asset to our organization.

As a Veterinary Technician, his skills in surgery assistance have been remarkable. He displays a deep understanding of surgical procedures, ensuring that the surgical environment is sterile, assisting the veterinarians during procedures, and post-surgical monitoring of the animals. His attention to detail and commitment to safety have significantly contributed to the success of our surgical interventions.

Bhesh's role as an animal handler has been exemplary. Furthermore, Bhesh has demonstrated proficiency in grooming animals, which not only enhances their physical well-being but also contributes to their overall happiness and health. His ability to monitor anesthesia during surgical procedures is worth noting. As a caretaker, Bhesh goes above and beyond to ensure the comfort and welfare of the animals in our facility. His dedication and compassionate approach to animal care have set a remarkable example for his colleagues.

In conclusion, I wholeheartedly recommend Bhesh Raj Mahato for any position in the veterinary field. His passion for animal care, his extensive skill set, and his exceptional work ethic make him an outstanding candidate.

Sincerely,

Dr. Rabindra Tiwari
